Turning Your Support Into Action

Our goal is simple. Develop partnerships in our community so that we can provide a mentor to every child that needs one. To achieve this goal, we need the support of people like you in our community. Whether it's in the form of time or money, there is no more important investment you can make than helping children realize and share their full potential.

We serve about 335 children each year, yet many more need our help. Help us make a difference for kids who are still waiting for a mentor.
